

CALL FOR PAPERS

**3rd Biennial ISPST Conference
Berkeley CA, August 6-7, 2010**

SPECIAL GUEST

Harry Collins

Keynote Addresses by

Alison Gopnik and David Klahr

Our scope includes all psychological perspectives on scientific thinking and the advancement of science and technology.

We invite all perspectives on the psychology of science & technology:

- Educational
- Social, cognitive, cross-cultural, or neuropsychological
- Experimental, observational, or computational methods

Major themes this year:

- Learning and Development of Scientific Expertise
- The Psychology of Scientific and Critical Thinking
- Psychological Perspectives on Socio-Scientific Issues
(such as understanding global warming and evolution)

**Submit abstracts (300 words) by May 7th 2010 and
get more information: <http://www.ispstonline.org/>**

Most relevant, quality abstracts will be accepted – only paid members of ISPST who register can present. **Conference registration is \$75 (\$50 for students) by July 10, 2010**
