

A newly formed society for psychological scholars of scientific and technological thought and behavior.

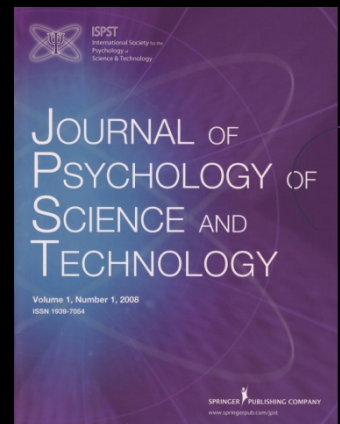

# Do you study any aspect of scientific behavior?

The International Society for the Psychology of Science & Technology and its peer-reviewed *Journal of Psychology of Science & Technology* from Springer Publishing are for you.

Our new society gives voice and organization to a diverse group of scholars from around the world who study science and technology from a psychological perspective.

All major branches are welcome:

- *Developmental psychologists*
- *Cognitive scientists*
- *Social / personality psychologists*
- *Neuroscientists*
- *Science Educators*
- *Historical / Psychobiographers*

Join our vibrant society to make connections, share ideas, and identify with like-minded scholars.

**\$40/year for full members**  
**\$20/year for students**

Membership includes a FREE subscription to our bi-annual peer-reviewed *Journal of Psychology of Science and Technology*.
